

HO-CHUNK TRANSPORTATION AUTHORITY

TRANSPORTATION PLANNING

HTA shall perform the survey, design, right-of-way, archeological and environmental services, road improvement or road construction for the Bureau of Indian Affairs Roads Construction Projects as identified in the TTIP.

Note: The TTIP identifies the work to be performed, the estimated dollar amount, and who (Contractor or Government) is responsible for performing the work.

1. Long Range Transportation Plans

Purpose: To develop a transportation plan for improvements to the National Tribal Transportation Facility Inventory (NTTFI) system necessary to meet the existing and future needs of the Tribal community. The Tribe should prepare Draft or Final Long-Range Transportation Plans and any amendments for review by the BIA.

Please contact HTA office for a copy of the Long Range Transportation Plan 608-374-3950

2. TTIP

Purpose: The Indian Tribal Government assisted by the BIA, state, local government, or metropolitan planning organizations, shall develop a Tribal Transportation Improvement Program (TTIP). The TTIP shall include all Tribal Transportation Program (TTP) projects proposed for funding. As a minimum, the TTIP should prioritize the listed TTP projects and state the TTP route number, scope of work, length of project (tenth of a mile), costs related to each project/project activity, and who will be performing the project activities on behalf of the Tribe.
